Codex space marines 2019 pdf

Example early 3rd edition Codex (Imperial Guard) Each codex had its own lettering style for the title. Example late 3rd edition Codex (Imperial Guard) All of these longer codices had a standard black border and common title style. Example 4th edition Codex (Space Marines) All codices had a standard grey metal-effect border and common title style. 5th Edition codices have continued this styling. Example 6th edition Codex (Space Marines) All codices had a standard grey name and the word codex. Early 7th Edition codices continued this styling. Example Late 7th edition Codex (Dark Angels) These codices had a standard white name with their faction type. Example 8th edition Codex (Space Marines) All codices have a standard grey title and border. A codex (pluralized as codexes by Games Workshop), in the Warhammer 40,000 tabletop wargame, is a rules supplement containing information concerning a particular army, environment, or worldwide campaign. Codices for particular armies were introduced for the second edition of the game. The third edition rendered these obsolete, and a new series began, including introducing codices for battle zones and campaigns. Until superseded by newer versions, the 3rd edition and later codices remained valid for the newer editions of Warhammer 40,000. Games Workshop no longer produce campaign or battle zone codices, instead releasing "expansions". Codex is now a term solely used for army books. At the launch of 8th edition all previous codices were replaced with index books due to a major rules overhaul (as of November 2019 these indexes are no longer produced). The indexes were subsequently replaced by a new series of codices. As before, these codices remain valid until superseded by newer versions (currently the oldest valid codex is Codex: Grey Knights - 8th Edition). The format of the codices has varied somewhat over the years. The most common elements between iterations include: Background - Information about the force and its place in the Warhammer 40,000 universe. This includes artwork, short stories, and copies of fictional documents from the future. Miniature Showcase - Originally a hobby section providing information on collecting, building and painting an army. Later a selection of photographs of Citadel Miniatures painted by Games Workshop's 'Eavy Metal team. Rules - Delivered in varying forms between editions. In earlier editions: a bestiary (descriptions of units, characters and vehicles with special rules and background information), alongside an army list (providing options and points costs for units in the bestiary). Since 7th edition, rules for each unit have been delivered on a datasheet (a concise page detailing all stats, equipment, options and special rules for a unit). All other army rules and points are listed separately in sections before and after the datasheets. Codex supplements provide additional rules for sub-factions of a parent army. These might include special characters or units and other special rules that are only available to that particular sub-faction. Rules for models produced by Forgeworld are available as part of the Imperial Armour series of books, also published by Forgeworld. Rules for models no longer supported by codices and supplements can be found in Warhammer Legends on the Warhammer Community website. Current Books Army Codices The range of codices is regularly updated with new editions of armies and occasionally new army codices. Codices designed for a prior edition of Warhammer 40,000 are still valid in the current edition, unless a later version has replaced it. Codex Supplements have their parent faction noted in brackets. 9th Edition 9th Edition was released in July 2020.
