There are a few ways to leave, but the game does not provide much guidance on how to do so. This guide will explain how to escape Talmberg and obtain your first armor set. Upon arriving in Talmberg during the Run! main story quest, you'll meet important characters like Sir Robard and Lady Stephanie. They help patch you up and give a place to sleep. After grabbing something to eat and resting, you're woken up by Stephanie for a chat about what happened back in Skalitz. This is your chance to increase your stats using dialogue choices. Talking honestly with Stephanie increases your Charisma and Speech stats while gaining a valuable ally. Later, after some cutscenes on the battlements, you'll be ready to move on from Talmberg. Once finished with patrol duty, speak to Sir Robard about returning home to Skalitz, but he will decline your request. After chatting with Robard, head through the courtyard and meet a Trader. You probably don't have much cash to spend anyway, so just take note of him for now. To escape from Talmberg Castle in Kingdom Come: Deliverance, you have several options available. You can choose between jumping off the drawbridge, getting caught stealing, or disguising yourself as a Talmberg guard. The latter option is the best way to get out of Talmberg and allows you to obtain the Talmberg Armor, your first armor set in Kingdom Come: Deliverance. To get the Talmberg armor, you must steal it from a locked chest at the end of the battlements, in the tower above the drawbridge. If you've got lockpicks to spare, you can try unlocking the chest now if confident in your lockpicking skills, but make sure to save your game before trying in case you get caught or run out of lockpicks. Long hallway above kitchen contains Stephanie in one room. You discover her praying in last room on right. When finding Stephanie, discuss your situation with her. She recommends acquiring Talmberg Armor and escaping disguised as guard. Mention low coin, she'll provide 25 Groschen and create cover story for gate guard. Brilliant plan indeed! After talking to Stephanie, sneak to tower where armor chest is located just before drawbridge. Save before attempting lockpick; buy extra from Trader if desperate. Equip armor pieces in menu after obtaining. Option to get horse for quick getaway or jump off drawbridge for alternative escape methods. Alternatively, speak with Guard Radim for cooperation and promise to play along when trying to flee. If not interested in Talmberg Armor, consider getting arrested by committing a crime; this method has its own risks. How to escape from Talmberg in Kingdom Come Deliverance? Don't worry, we've got a plan. First, let's talk about why leaving Talmberg is such a big deal right now. It's not like you can just walk out - the game's set up so that it's tough for you to persuade anyone to let you leave, especially at this early stage. Fighting your way out isn't an option either, since combat in Kingdom Come Deliverance is pretty challenging and you're not exactly equipped to take on a bunch of heavily armored guards just yet. So what do you do? Well, one thing that's helpful is being nice to Stephanie - she'll become a useful ally if you play it right. You'll need to have some conversation with her later in the game anyway, so this is a good chance to build up your relationship. When you've got through all the story bits, things start to make more sense and you get a new goal: leave Talmberg and take care of your parents. Problem is, Robard's not going to let you go anywhere right now - and you can't exactly force him or persuade him otherwise. What you should do instead is explore the castle and see what's there. There's a trader who sells lockpicks for coin, but since you probably don't have any money yet, that might be tough. But if you've been nice to Stephanie earlier, she'll give you some cash if you tell her you're broke - and more importantly, she'll also let you in on a secret about the guards' routine: they won't recognize you if you're dressed up as one of them. So here's what you need to do: steal some Talmberg armor so you can sneak past the guards. It's not easy, but it's worth it - and it's free! There are two ways to get this armor: either by stealing it from a chest at the top of the tower (you'll need lockpicks for that), or by knocking out one of the guards and taking their armor off them. To successfully escape from Talmberg, one must be cautious not to draw attention before completing their objective. Alternatively, acquiring the Talmberg Armor offers a stylish exit with horse theft, making it an ideal method for obtaining a horse in Kingdom Come Deliverance. If this proves challenging, other options include: jumping into the moat from the drawbridge or committing a crime. The latter will result in immediate expulsion from the castle, while the former requires swift action to evade guards.
