Kdlinks x1 car camcorder user manual pdf converter

Kdlinks x1 user manual pdf. Kdlinks x1 manual.

KDLLINKS X1 is a complete corner Camma Dash, large with a big screen, integrated GPS and higher night mode recording. It can automatically record high clarity videos at a resolution of 1920x1080 pixels at 30 fps in a continuous loop. In the unfortunate case of an accident, the integrated G-Sensor automatically detects it and the emergency block button blocks the video file to save it from the deletion. While the 165 degree wide angle lens and the WDR or Wide Dynamic Range technology ensures that nothing must be incapable from this intelligent camera of the car dashboard, the 2.7 -inch LCD screen allows you to reproduce the registered clips inside of the vehicle without having to transfer to any external device. Since the GPS module is incorporated into the camera, it incorporates the information on the position and the related data in the video clips. Using the KDLLINKS PLAYER software that is provided free of charge with the CD Dash in a CD, you can also use Google Map to monitor the location, speed and vehicle route. And if you don't want to use the GPS function, you can easily turn it off. Kdlinks X1 is equipped with an 8 GB micro SD card and is ready for use as soon as it unlocks. The innovative suction cup support helps you to vanish with the window of cables tangled on the dashboard of your car. The camera itself has an ultra thin design and works without inviting the locking eyes towards it. It starts almost instantly and starts recording as soon as the vehicle is turned on. Another surprising feature is that it is possible to go around this 360 degree camera in any direction. This is extremely useful in some situations such as when you want to record an officer or someone standing from the car window, or some other vehicle driving "À "À onroig li etnarud itartsiger oediv iedl Àtiauq aL .irtem 02 a 01 id aznatsid anu a olociev led ehgrat etnemlicaf ereggel elibissop À .atalgatted e araihc ,aicuil enoizartsiger aus al rep aton "À aremacotof aL .otal ortsov 1x SKNILDK ECIRP .2 weiver maC hsaD 1X SKNILDK .1 maChsaD 1X SKNILDK no derutpac tnedicca rac emiyaD fo oediVnIar yvaeh ni gniavrd emit thgInNaera cinecs hguorht yad ymnus no gniavrd emiyaDselppmaS oediVlaunam resUnoitcnuf SPG rof erawtfos DCretpada drac DSorcimdrac DSorcim BG88regrahc rewop retpada raCtnuom puc noitcus htiw eludom SPGtekarb gntnuom dlehtsdniw puc noitcusmachsad 1X SKNILDK7x0b eht ni sÀÀÀetahVerawtfos reyaifP redroceR noisrev CAM SKNILDKswodniW(14302.8275.0.1.reV erawtfos reyaifP redroceR gniavrd SKNILDKdaohwoD erawtfiF dna erawtfoSlaunaM resU FDP llufF daohwoD launaM resU1X .Rebmun Meti Fa "À04- Ni Sruoh +6, F4 "À "À071: Erutarepmet Ham011 V7.3 Remylop-Chil à "à € € € € Yrettab BG23 OT PU, DSorcim: Egarots SEY: SEY: SPG DCL à € € € 7.2: NERCS SEERGED 561: Elgna SNEL 0330RA: ROSNES VOM.: Tamrof Oediv 462.H HTIw SPF 03 Ta) P0801 * 0291 DNA LAUNAM, SCEPS LLUF! DESIGN eÀÀeÀ 6.6 x 5.1 x 3.2 inches. eÀÀeÀ Camera can be turned at 360ÀÀ in any direction. eÀÀeÀ Can be used as a web cam when plugged into a computer device. B+ 5. INSTALLATION eÀÀeÀ Easy to adjust mount. eÀÀeÀ Sales package includes two mounts: one with a GPS module and one without a GPS module. C 6. BATTERY Features a 3.7 V 110 mAh Li-polymer battery. Battery can withstand extreme temperatures ranging from -40ÀÀ Fahrenheit to 170ÀÀ. C 7. VIDEO Uses the Novatek NT96650 processor and the AR0330 KDLINK X 1 sensor. Records at 1080p (full HD) at 30 frames per second. Videos captured on default setting are slightly over-exposed. The wide field of view causes fish-eye effect on the videos. B- 8. GPS GPS module is built into the camera and embeds the location and related information into the video clips. Google Maps can be used to track the location, speed and route of the vehicle. B+ 9. G-SENSOR G-sensor detects sudden acceleration or deceleration. In an event of an accident, the inbuilt G- sensor automatically detects it. Emergency lock button locks the video file to save it from getting erased or overwritten in the loop recording. B- 10. KDLINKS X1 SOFTWARE KDLINKS X1 dash cam software is compatible with Windows devices. Interface is simple and is easy to understand and navigate. Camera can be configured without the software. B- 11. STORAGE Supports microSD card with storage capacity up to 32 GB. The micro-USB port on the dash cam is also used for transferring the captured video to a computer or a compatible mobile device. Videos can also be watched on the 2.7-inch LCD screen inside the vehicle. C 12. PROS Wide angle lens vehicles in other lanes. Simple software installation. External emergency button on the device. Customer support. Heat resistance. 13. CONS High price point. No touch screen. The lipolymer battery is subject to curvature if left in-cab for long periods of time. 14. OVER ALL SCORE C KDLINKS X1 is a dash cam of KDLINKS inc, which is one of the leading consumer electronics products companies located in Atlanta. KDLINKS x1 dash cam is at the price of \$399.99. User Guide CD with GPS function adapter MicroSD fan suction cup with GPS module suction cup without GPS module 8GB micro Charger for cigarette car with cable Micro USB cable X1 is elegant, compact and lightweight device that has a 2.7" screen. The camera can be turned 360° in any direction. It can be of great use if the driver wants to record some situations like when an officer or any other individual on the side of the cabin or a vehicle on the side of the vehicle. It can also be used as a web cam when connected to a computer device. The X 1 dash cam is equipped with a relatively unaware and easy to adjust suction support for installation. The sales package includes two supports: one with a GPS module, and another without it. The interface can be a bit intimidating for some users, since the interface on screen is extremely icon-heavy that makes navigation quite difficult. For installation, the user must constantly refer to the user manual. Users found the installation process rather complicated. In addition, the cam X 1 dash mounts a little lower than most dash cams making it a little less discreet than required. Li-polymer battery 3.7 V 110 mAh can withstand extreme temperatures ranging-40 ° Fahrenheit at 170À ° Fahrenheit. He would have provided more utilities if he could last little more than 60 seconds. The USB power supply on the Camma Dash is equipped with compensation for the battery battery noitacol ,deeps mumixam dna egareva kehc ,sgnidrocer eht yalp ot erutaef a sah noitacilppa ehT .noitacilppa eht ni dedeen si hcum ton ecneh dnA .erawtfos eht tuohitiw derugifnoc eb nac aremac eht taht etoN .etagivan dna dnatsrednu ot ysae si dna elpmis etiuq si ecafretni ehT .sevised swodniW no elbitapmoc si erawtfos mac hsaD 1X SKNILDK ehT .gnidrocer pool eht ni nettirwrevo ro desare gnitteg morf ti evas ot elif oediv eht skol noutub kcol ycnegreme ehT .ti stceted yllacitamotua rosneS-G tliubni eht ,tmedicca na fo tneve etanutrofnu eht nI .noitareleced ro noitarelecca neddus stceted ,rosnes-G ro ,rosnes ytiyarg A .derised fi ffo denrut eb osla nac erutaef SPG ehT .mac hsaD 1X eht no yllaunam tes eb ot sah ti tub ,noitamrofni etad dna emit eht setadpu osla erutaef SPG EHT .LCIHEV EHT FO ETUOR DNA DEEPS, NOITACOL EHT KCART OT SPAM ELGOOG ESU OSLA NAC ENO.
