Watching Lili Reinhart Chemical Hearts new film will feel a little jarring for the Riverdale fans. In the new film, his character falls for a lonely writer with different dark hair, whose motto also © m m © Probably "I'm weird. I'm a weirdo. I don't fit in. And I don't want to fit in." We are all so used to seeing her with the Jughead of Cole Sprouse, but for the similarities Jughead and Henry (Austin Abrams) of Chemical Hearts share, Reinhart Grace's character could not be further away from Betty Cooper. Before the start of the film, Grace's boyfriend died in a car accident which also © She was severely wounded. She carries a lot of guilt and sadness from that event, so while she wants to move on with Jughead 2.0, all her heart is not necessarily in it. The film's soundtrack foreshadows the fights that the duo will have, until © even happy, falling-in-love assemblies, set in songs about desperation. There's also © m a song that plays repeatedly, that © on a person who makes the whole heavy relationship rise. The title says everything t o o © m. A Kenya pregnancy © the one that ends before it even begins, with a fertilized embryo that does not take root in the third. By this notion, a quaint heart looking for new love would be condemned from the beginning. But at least the songs that mark this doomed relationship look beautiful. The Beatles songs have provided fodder for a handful of musical films. During the 2000 years, fans had to see a famous director's Fab Four musical. Here's your idea for another movie musical with Beatles songs. The Beatles 124John Pratt/ Stringer This famous director has already made this bold film based on the songs of the Beatles Julie Taymor © A famous stage and screen director. She probably is. © most famous to Broadway fans for directing the stage version of Disney's Lion King. The Lion King © Broadway's most acclaimed musical based on a Disney story. He was praised for his expansion of the film and his unique appearance and visuals. The other Part of Taymor's Broadway career, © she directed Spider-Man: Turn Off the Dark, a musical based on the famous superhero. This musical was notary because some actors who played the title role were injured during the performance. In addition ©, Taymor directed several films, including the cult classics Titus, Frida and The Tempest. Perhaps the greatest cult classic of his career is Across the Universe, a musical based on the Songs Beatlestein Ahem. Some of the Beatles covers in the film are © to the originals, while others are extremely different. For example, the version of the film's "Please Please Me" is © a ballad while its version of "Judeoquinhosá" © much shorter than the Beatlesteiná Danding'. According to Cinema Blend, Taymor is down to a sequoia to the Universe. The author accepts the credit © for writing some of The Beatlesleá that Julie Taymor wants to do with the Beatleseza eza songs she hasn't used in áÉ"Throughout the Universe áÉ" what Julie Taymor wants to do with the Beatleseza songs. Taymor thinks she can get the clues from across universe to return to a scum. I'm trying to convince people to make ááá Haaá I don't want to call it Across the Universe 2áÉ" apron, but the next, áAllahá she revealed. Actually, I just got off the phone about it. Oh, my God, there were songs about the 200 Beatles. So I just used 33. áÉÁ, Jim Sturgess called me and he wants to do it and Evan [Rachel Wood]37s game. á Á Rayna160: áÁá©©150.70s, she said, I am sure I can get other© people to installed á I á Á¹1. Seventy seconds. There would be a very tense and strange climate in the times of today, ahead of us, which will be very similar to what will happen now in our country, right? I don't know, you have to find me some very daring people who are ready to make a new musical. That© a lot, you the next generation depends on everyone I speak to loves through © The universe. We have to do the next one. A trailer for Across the Universe RELATED: One of the Songs from The BeatlesDuche@Owens) White Album Coming was partially a Parody Parody Parody Parody The covers of the Beatles songs from "Across the Universe" popular? While Taymor was enthusiastic about the prospect of using Beatles songs that were in Across the Universe in its sequel, no © Of course if the audience really wants new songs from the film's cast. The soundtrack for "Across the Universe" was performed at number 22 on the Billboard 200 before falling off the map the following week. It was a great success, if © that counts as a success. RELATIONSHIP: John Lennon liked one Elvis Presley Hit Better than All The Beatlese Songs although the hand HBO songs An American Pickle may not end up on their next practice playlist, they should definitely be added to the mixture for the next bar/bat mitzvah they watch. With very few real success songs in the new movie, starring Seth Rogen in double roles, the score © left to give emotional weight to each scene, and they all sound like something their bubbeh or zayde would dance to. It's the music. © composed by Oscar winner Michael Giacchino, best known for his work with Pixar (the Up theme that makes him cry? Is it yours), Marvel, and Star Trek films, and Israeli composer Nami Melumad. It is certainly considered contemporaneous in terms of how it makes the film feel, but at the same time it seems that it has come out directly from the s o-called old countries. And if we know anything about the way Giacchino names their songs, they are always pungent and sometimes He was up t o his usual anointing with An American Pickle because his same tradition of song names continues, but this time with an Yiddish twist. Is Yiddish © Much used in the film, since Rogen launches himself into complete monologues in the language. While your dialogue is not © subtitled s o that we can understand, the titles Yiddish Giacchino and Melumad are at least a little more common. When Rogena Herschel and Ben Greenbaum get into a fight with a bunch of Cossacks, music played during the scene is, áKlezmer Fight Club.á Later when Herschel Herschelto go and find Ben, this song has the proper title, áSchlepping to Schlupská á when it was the last time you hit yourself somewhere? The soundtrack also has some puns, because obviously it does. A song with the proper name is "Pickle Your Fancy", and hopefully we'll understand that you play with the words. The final song of the film is "The Silver Brining", which certainly sounds like "the silver lining," but brine is actually a decapant term, which means to plunge something into saltwater. And don't forget the song of final credits, áPickles, Suite or Sour," considering that pickles can be sweet, or sour, and also the suite is a common musical melody. If the Yiddish and pickles are not your thing, there are also two Star Wars jokes perfectly placed on the soundtrack. Giacchino composed the song for Rogue One: A Star Wars Story, but here the tribute is given to the original trilogy with songs "Back to back", "Regene of the Ben" and "The Pickle Empire Strikes Back". Checking the American Pickle soundtrack may not be the first thing you do after the movie is over, but just like Herschel, it takes a few seconds to enjoy the beauty and wonder of the world, and also puns of puns.
