Harwich to Liverpool

Harwich town to london liverpool street. Liverpool to harwich boat train. Trains liverpool st to harwich town. Train from harwich to liverpool street. Liverpool st to harwich. Trains from harwich to london liverpool street.

Posted in bike fans © holiday July 10 The Ãºltimos quilÃºmetros to Liverpool comeÃºsou again with a beautiful bike path, which was completely Ãº ferry according to a cyclist. AcreditÃºvamos that were planning to cross the ferry, the trÃºfego or no trÃºfego anyway. The bike path would be much extra quilÃºmetros. The landscape Ãº slightly glove but already nÃº f wanted to defect unnecessarily. Just before we left the bike path just in a exercÃºcio of Police Office. Up from us a good time with one helicopter horns. Do the f could view it on the bright sun or atravÃº © s of Ãºrvores. In some places, one Police Office car stopped suddenly and agents came. Do the f tÃºnhamos idea what was going on. I told an agent in Execution f past it obscured our fear and she screamed it was a exercÃºcio. We will tÃºnhamos just lost the way. Cross the Mersey with the ferry. Liverpool seemed much warmer than in Birkenhead where we came from. Without many problems that led to the B & B that already tÃºnhamos discussed. Do the f hÃºi camp in Liverpool. f Tomorrow we will see the city and after tomorrow f he will return home. First, go to Hull train and then with the ferry. We had a very varied bike ride. NÃº f o-Only the Ãºrea was varied, Tamba © m time, this time! day is distant © INSTANÇON 35 km total of 1400 quilÃºmetros 20,150,710 20,150,710 092 601 092 713 2015 07 10 14 05 23 2015 07 10 14 45 57 Posted on July 9 Fietsvakantie The proprietÃºrio the campsite asked no money to support last night. Well, to be honest, the pikogy chicken that crossed the land, picked us up from hot corn from the pan and dinner made a OCCASION f very disturbed with the result that hangs in the tent to eat without being disturbed and, of course, the lack of a shower, but a reason for the f a big discount, but for tornÃºi it free Ãº © very enjoyable. I will not even complain about the chicken! In Penrhyn Bay we came back to bite one coastal path. According to a man, the path led to England all the way. We had heard of this, because the wind comes from the right and it would be wonderful to cycle along the ocean. But the road is really aft Prestatyn, Enta f o Ãº © a short coast. Route 5, then back to the hills. The roads in this urban Ãºrea sÃº f e o f the a huge hurry and SURSRANS makes a lot of trouble to avoid this type of roads. Therefore, in the hills. It became too heavy for Bert. It was the first, but the second hill, still tÃºnhamos to look for alternatives. The GPS on my phone has proven to be a huge tool. I have been able to take us greatly atravÃº © s tangle of unfamiliar roads. We will sleep in a hotel just aft Queensferry, just in PaÃºs Wales. day is distant © INSTANÇON 72 quilÃºmetros 20,150,709 091,749 20,150,709 123,545 20,150,709 125,926 20,150,709 171,215 Posted in cycling holiday on July 8 before the rain was good and we will comeÃºsamos. The buffet lunch employee assured us that does the f problem was that estÃºvamos waiting, but estÃºvamos uneven. Fortunately nÃº f the last long before it was dried. After a short half hour estÃºvamos again in Menai Bridge. Bangor seemed to us to contrÃºrio Holyhead, busy and welcoming. We were wrong for yacht yard. Thinking of the North-seater route, where often a cycle of yards. But this time in the f was the f intenÃºsÃº. Route 5 mainly in the f go far from the coast to the east. Already it was noted that there were many real bike paths; The bike path along the coast Ãº © really a very special project. It runs around a rock, immediately with a railroad and a double road from a Rijksweg. Through all types of ladders and bridges (pedestrian) that were introduced right conwy. The lady in traditional costume photographed voluntarily by me for the smallest house of GrÃº f Britain. Castle trace a railway bridge side of levadiÃºsa to come and we have seen a huge time To help cyclists and pedestrians to the other side. We do f did the cycle much further and put our tent in a small camp. Other, no shower. What a pity! Day of Dista © INSTANÇON quilÃºmetros 20150708 58 2015 112 947 07 08 11 32 33 20150708 20150708 145728 165053 07 08 2015 19 43 2015 37 07 08 19 50 43 Posted bicycle fan © holiday July 7 Holyhead sounds very good and found that © important for the cycle with an image in front of terraces along an enjoyable harbor. We have seen enough of such cities. There are two routes between the island of Anglesey. The southern route Ãº © Route 8 and North Route 5. We were 8 for a fairly flat landscape and saw a rock on top of the crater is © INSTANÇON at some point. Holyhead later it turned out to be lÃºi. Both routes took the ferry to Dublin. There were three ready. We will drive more, but f found the rest. We take cafÃº © in the season the E, looking at the line of people who had to be with one of the ferries. The runner estÃºsÃº f © m was tamba the terminal. Route 5 on our trip back atravÃº © s of a beautiful mountain landscape. It was good and cycling. The campsite we met along the way came early. I do f had bought food and yet, so we had to go. It was a shame because it was dry Enta f o. Later, it changed. We do want the f set up the tent in the rain and opted for a hotel. Day crater is 76 © INSTANÇON quilÃºmetros placed on cycling holiday July 6 was around 08:30 when he was on the steam train to the top of Mount Snowdon after a steady rise in the camp steam train. A light newspaper said the first train departed with space no'clock December The Price List called the preÃºsos: Ãº Ãº E 27 per person for a return. We decided to go because we think that does the f worth the money and the f expect. Shortly before the afternoon ten comeÃºsou raining and according to previsÃºes, continuarÃºi raining © minutes one night hours. It has become such a cache day. First under a Ãºrvore, then in a restaurant and then later in Llanfairpwllgwyll souvenir shop. We had enough rain and booked a room in a pub. day is distant © INSTANÇON 44 quilÃºmetros 20,150,706 073 116 2015 07 06 15 40 40 151 227 20,150,706 20,150,706 144 904 Posted in cycling holiday July 5 After more than an hour by bike, come to Beics Brenin where we ask a hearty lunch complete. With a hearty lunch tÃº f completes you may end for a while. Beics Brenin Ãº © a starting point for O. A. mountain biking, running, walking and geocaches (they tÃºm two different tours with enough caches). We do the f were long on the road, after our breakfast, or comeÃºsou raining. With rain in the f Ãº © fun to climb a mountain, but nothing else was just happening. It was unfortunate that Puda © ssemos enjoy the beautiful landscape much less. In Lynn Trawsfynydd reservoir that came along Route 82 following a path that was more hiking trail than was suitable for cycling; It was dirt track, very narrow and it was packed with poÃºsos muddy. In a very desconfortÃºvel B & B estÃºvamos rain aft about three hours, which is hot in a cup of coffee ©. I will never have drunk so much as this fan cafÃº © © holiday. Fortunately, it has become dry and we will drive along a razoÃºvel way to the camp located in estÃºi soup © Snowdon mountain. With its 1085 meters, Ãº © Snowdon the highest top of Wales. day is distant © INSTANÇON of 58 quilÃºmetros 2015 07 05 18 38 04 20150705 170715 20150705 183704 Posted in holiday cycling July 4 was very bad again tonight and he still in f it was really dry when saÃºmos, but we will say a joke that otherwise-Only from house cafÃº to cafÃº © home © had to cycle. Finally we get to a campsite Ãº © Tamba © m one pedaÃºso biking. The cache was Necessary only after 20 quilÃºmetros and fortunately came a community store. bit as all the tables were occupied. Service Slow and rained long enough to recharge my phone. The solar collector I have with you, it is not enough for my GSM and the sun looks very little. 20 km from the distance we were deep in the mountains of the Cambrain Mountains, where we ate in the small terrace in the new restaurant of Andy and Adam in Corris. Then he rose even more, until we could see in the clouds of the top snowdon in the clouds. It was a very ugly rise. I think we had to push a kilometer with all our bikes. The descent was unfortunately very fast again. The sheep fled to us. It's a beautiful nature. If you push the motorcycle to the mountain you can stop from time to time, too; You are necessarily remarkable to reclaim the fan, and then look around to marvel at splendor, but downhill you do not have time for it. You jump on the path of earth beat and then there are also those sheep that make vain attempts stupid. Fortunately there is a fence that blocked the road. Then you can still look around you. In Dolgellau a lot of warmth sounded among the many restaurants and hotels. He was just looking at the fir in the labyrinth of narrow streets. We have the tent in a camp where there is also a ruin of an abbey. Fura of mosquitoes. Day distance from 61 kilometers 20150704 170845 2015 07 04 21 34 01 Posted in Cycling Holiday July 2, while the continent years for a rainbox for cooling...nou had one and the humor lasted 4 hours! Bert did not want to hide, but I absolutely felt that it does not become soaked, despite my brand new raincoat. With casual hiding place we arrived at a hotel restaurant in the middle of a forest, where we were allowed to wait for the humor. We could have coffee, but no food because he was not really open yet. They were good. Sometimes it is difficult to find the right way. On the map, sometimes it seems different than the real situation. But it did not take it very wrong. We are mainly on the small roads. Going over a busy two-track road is unpleasant; Cars can drive more fast than we are accustomed to. Let's be taken into account here, but it seems bold, as if you're in a hurry. You are also going to difficult cycle than you would normally do. So, once the rain stopped, we interrupted up and down through rural roads to Aborystwyth. The last part along the Ystwyth track. Day distance from 65 kilometers. 2015 07 02 02 21 54 24 20150702 191006 20150703 100118 Posted in Cycling Holiday 1 July 7 in the morning are on the bike. It was already hot and we have a very sunny and hot day. Sunny would be just not today, even occasionally rained a little, but it was hot. We left immediately and therefore climbed a mountain unnecessarily. We really wanted a cycle along the Gwaum River, but I had not seen it once. Finally on the right path we could enjoy tranquility. We do not realize that we were slowly rising, we only noticed when we went by 20% immediately before Newport. After some groceries I drove without waiting for BERT until I saw gestures through my helmet mirror. I set up the wrong way. I think I got up early. We have observed little Hunebed and climbed the next mountain. You can not drive a sustain. We get Route 82 in Fishguard, because Route 4 likes there, but Route 82 passes into the interior inside. So Route 4 goes from London to Fishguard! day distance of 52 kilometers 20150701 091835 2015 07 01 12 29 52 Posted in Cycling Cycling Holiday Fan ©
