CONTRIBUTION A L'ÉTUDE DES CESTODES DE LARI DES CÔTES DE FRANCE

I. LE GENRE *HYMENOLEPIS*

Révision des espèces du genre, à propos de trois descriptions dont une nouvelle

Par S. DEBLOCK, J. BIGUEI et A. CAPRON

- A. — Introduction.
- B. — Redescription complète ou partielle :
Hymenolepis charadrii Yamaguti, 1935, n. comb.
Hymenolepis lauriei Davies, 1939.
- C. — Espèce nouvelle:
Hymenolepis stelloræ.
- D. — Mention :
Hymenolepis cirrosa (Krabbe, 1869).
- E. — Discussion des *Hymenolepis* de Lari :
 - 1) Exposé des réformes de systématique proposées par Baer.
 - 2) Examen critique.
 - 3) Liste des espèces valables et synonymies principales.
 - 4) Validité des trois espèces décrites.

CESTODES DU GENRE *RAILLIETINA* TROUVÉS CHEZ L'HOMME EN AMÉRIQUE INTERTROPICALE

Par Robert-Ph. DOLLFUS
(suite et fin)

3. LES *RAILLIETINA* DE L'HOMME À CUBA

La comparaison des *Raillietina* de l'Équateur ci-dessus décrits (1), avec les espèces de *Raillietina* connues chez l'homme et les mammifères m'ayant conduit à ne rapporter aucune des premières à l'une des autres ; j'ai cherché des formes de comparaison parmi les *Raillietina* des Antilles. J'étais informé de l'existence de la raillietinose humaine aux Antilles par un document manuscrit conservé à l'Institut de Parasitologie de la Faculté de Médecine de Paris et par une récente publication de P. Kouri et J. M. Duval (1938).

Le document manuscrit était une lettre, datée du 5-4-1939, adressée au professeur E. Brumpt, par les D^{rs} R. Hernando Loeches et Pablo Alavez, relatant un cas de raillietinose à Agramonte (Province de Matanzas, Cuba), observé chez un enfant de 16 mois ; un ver avait été trouvé dans les selles et envoyé au prof. E. Brumpt ; je l'ai retrouvé dans les collections du laboratoire et le prof. E. Brumpt m'a permis de l'examiner, ce dont je le remercie vivement. L'exemplaire paraît complet, comportant le scolex et le strobile jusqu'aux proglottis gravides à capsules prêtes à être libérées. Bien malheureusement, ce ver était vraisemblablement mort depuis quelque temps lorsqu'il a été expulsé par le malade ou bien a été trop hâtivement mis en alcool, car ses tissus sont mal conservés, en dégradation, avec noyaux pyroniques ; il est cependant possible d'en donner une description permettant sa comparaison avec les autres *Raillietina*.

(1) Tout le matériel (*Raillietina*) envoyé en communication par le Dr L. A. León lui a été renvoyé à Quito, à l'exception de : 1^o quelques fragments de strobile prélevés dans chaque tube et utilisés pour des préparations ; 2^o les deux préparations de scolex de *guitensis*, qui ont été provisoirement conservées à l'Institut de Parasitologie de la Faculté de Médecine de Paris.

Fortunately, you have the convenient option to stream the tour live on both NBC Sports and NBC's Peacock streaming service. The race coverage on Peacock is only available through Peacock Premium, a paid tier of the service that costs \$4.99 — a worthwhile investment if you're a serious cycling fan who can't wait to watch this Grand Tour. On a weekend you'll only see fellow, smiling cyclists. You begin in the lush, green valley and gradually start to see Mont Ventoux in the distance behind you, on your first few switchbacks. Take the time to peruse what they're offering. The grade of the climb is gentle, then grows tougher as you get toward the middle section and the final stretch, but it's a comfortable challenge. It's the ideal place to just pedal and savor. You can use that to catch up on the race and decide if you want to make the monthlong (or longer) investment. Be sure to fill up your water bottles at the public fountain across from the Cafe du Soleil; the perfect place for that final espresso. (Bouquinistes are set up on the right bank from Pont Marie to Quai du Louvre and on the left bank from Quai de la Tourneille to Quai Voltaire) A kid can spend only so much time in "Isn't that pretty, don't touch, be quiet" museums. After we descended to the lavender fields below and through the quaint town of Sault, we found ourselves climbing once again, this time to the Gorge de la Nesque. Gorges de la Nesque, 84390 Monieux, France. Bienvenue to favorite bicycle ride in all of France. You'll pass under a few small archway tunnels as you hit the last few kilometers and finally, you see the summit and viewpoint. Photo Courtesy: Luc Claessen/Velo/Getty Images Lasting nearly three weeks and involving several hundred competitors, the Tour de France is one of the biggest sporting events across the globe — and in the world of cycling, it's definitely the biggest. The length of the course is also extensive, however; it's typically over 2,000 miles long and can pass through multiple neighboring countries. One that I did so often while living in Provence that my friends called it my 'church.' Aptly named. If you include the spectators in that count, the numbers — pre-pandemic, at least — can run into the millions. It was actually a promotional event hosted with the intention of bringing more publicity to L'Auto, a French newspaper that focused on reporting details about different sporting events. NBC Sports is accessible if you're already paying for regular cable, but without that subscription you won't be able to stream the program online or watch it on TV unless you spring for Peacock. Keep in mind that, if you're not already a Peacock subscriber, you'll receive a free weeklong trial to better help you determine if the service is right for you. Located in the western wing of the Grand Palais, this hands-on science museum has exhibits and experiments on everything from chemistry to life sciences to the stars. More than just frivolous trinkets, many of them house collector's items from vintage magazines and stamps to used books, trading cards and old photos (which make for a far more interesting postcard). In Tour de France context, a peloton is the main group of riders where most of the participants are cycling together. Sag Wagon: If someone bonks, they may need the assistance of the sag wagon. The riders themselves found numerous ways to cheat, disqualifying themselves in the process. One of these is a yellow jersey, called the "maillot jaune," that's bestowed upon the racer who had the lowest cumulative ride time for the day. If you've ever walked along the banks of the river Seine, you've probably seen long green boxes and their vendors plying souvenirs, postcards and a variety of other knick-knacks. It's fascinating to explore the subjects that your little scientists are most drawn to, or to uncover the ones that make them want to run and hide. The rider who wears the maillot a pois is affectionately known as "the king of the mountain." There Was Almost Only One Tour de France Photo Courtesy: STR/Stringer/AFP/Getty Images The first Tour de France took place in 1903 — and that was almost the one and only iteration of the race. Stroll the Seine and talk to the vendors — you might just find yourself walking away with a Parisian treasure you'll actually want to hang onto. The accommodation sleeps up to six, and it is rented out as a whole, plus small pets are welcome. Where you stay now when you go to La Tina is where they used to store the wine ages ago, but don't worry, it doesn't smell like a wine cellar anymore. As you're watching the Tour de France, you might hear commentators use some curious turns of phrase — and many of them will be unique to the race itself. There's always a local selling honey and dried lavender and it's important to soak up the cathedral canyon, before layering up for your return descent the way you came up. We rested and marveled at this magnificent canyon, discussed the beauty of France and what this ride meant to all five of us. That's because newspaper editor Henri Desgrange, who helped organize the initial tour, was so aghast at the conduct not only of the fans but also of the competitors in the 1903 race that he wanted to discontinue it despite its clear appeal. But the number of people involved in ensuring the race goes off without a hitch is much higher than the number of athletes participating. Although L'Auto has since closed down, the parent company of its replacement, L'Equipe, continues to organize the Tour de France today. It's Not Just Big, but Also Long Photo Courtesy: AFP/Getty Images And it's long in multiple ways, too. There have been times when I've been on this route when over the course of three hours I've see only one or two cars. MORE FROM ASK.COM It's also called a "musette" or, sometimes, a "bonk bag." Lanterne Rouge: In French this term means "red light," and it refers to the cyclist who's in the very last place in the race. Boost your bicycling know-how by learning what these terms mean before catching one of the race segments. Bonking: Cyclists don't want to "bonk" during this race; it means they've run out of energy and are too wiped to continue. Peloton: No, it's not the fancy exercise bike you bought during the pandemic. The race itself takes place over the course of nearly a month, with 21 different day-long segments making up the bulk of the competition. Parisian families looking for rainy-day activities where kids can be themselves head to the Discovery Palace. Soon you're above the tree line and large exposed faces of limestone tower above and around you. Plus, you'll discover where and how you can watch every minute of the race from the comfort of home — no cleats or helmet necessary. Thousands of People Are Involved Photo Courtesy: Marco Bertorello/AFP/Getty Images You might already know that a bevy of bicyclists participate in the race — 198 riders spread across 22 different teams compete each year. Boisterous crowds turned violent, with spectators assaulting racers as they passed along the course. This much-anticipated annual race faced some setbacks during the COVID-19 pandemic, and while the world hasn't returned to normal yet, devoted cycling fans (and those of us who simply love edge-of-our-seats competition) are eager for the big return slated for this summer. In honor of the Tour de France's grand 2021 re-entry to the sporting universe on Saturday, June 26, we're taking a look at some fun facts that'll get your anticipation building even more. What you will get is an excellent country farmhouse where you can enjoy magnificent countryside and where you'll find a swimming pool, a barbecue, a terrace and a garden. Completing a 13-mile ascent of Mt. Ventoux from Bedoin, we thought we had reached the pinnacle of beautiful views at its peak. As you follow the signs for Sault to leave town, you'll quickly turn right onto the sleepy, 22 km road up and through the winding canyon that follows the Nesque river. In silence and awe, our bike tires caressed the curvy road on the gorge's edge for miles. It wasn't even always this short, either — in 1926, the course encompassed a winding 3,570 miles and took a full month for riders to finish. Different Jerseys Mean Different Things Photo Courtesy: Pool/Velo/Getty Images As you watch the race, you'll notice cyclists wearing the bright kits and bibs that represent their teams — but you'll also spot some even more unique colors and designs among the pack. Other special jerseys include the green "maillot vert," which is awarded to the rider with the most points, and the "maillot a pois" — a red and white polka-dotted jersey given to the cyclist who earns the most points during the areas of the course that have steep inclines to climb. From city to city along the race route, hundreds upon hundreds of people follow the action throughout the course of the event. Depending on which direction you're coming from, you'll probably come through the small town of Villes-sur-Auzon to begin the climb. But the Tour de France was so lauded — and it increased circulation of L'Auto so extensively — that the organizers had no choice but to continue hosting the event. The Race Has Its Own Language Soigneurs prepare to hand out musette bags with meals during stage 15 of the 2017 Tour de France. But did you know that these Bouquinistes - all 240+ of them - are considered a UNESCO World Heritage Site? Being in this position gets riders ample attention, and those who know they won't win sometimes compete for this distinction instead. You Can Watch the Action at Home — Here's How Photo Courtesy: Justin Setterfield/Velo/Getty Images Now that the race has returned to regularly scheduled programming in 2021 following its 2020 pandemic postponement, you might be eager to catch the three-week racing saga unfold from the comfort of home. Watch as real scientists test their theories, play fun math games, and challenge your memory. This photo was taken as my fellow Velocureans began to depart and continue this inspiring ride. Photo Courtesy: Chris Graythen/Getty Images Sport/Getty Images Bonking, anyone? This is a car that follows the pack of cyclists and picks up those who become too fatigued or injured to keep riding. Musket Bag: While it may sound like something you'd find at a Civil War battleground, a musket bag is sort of like a bagged lunch — but it's packed with energy gels, water, sandwiches and other fuel for the cyclists. And organizers and support staff keep things running smoothly to the finish line. The Race Has a Surprising Connection to a Newspaper Photo Courtesy: Robert Deyrail/Gamma-Rapho/Getty Images The first Tour de France wasn't held because a bunch of bicycling fans got together and thought it'd be a great idea to start a competition — at least not totally. Organizers take logistics to the next level with team staff members, members of the race jury, thousands of security professionals and members of the media. Inside you won't want for much either, and next door is a farmhouse with a farm.

Lors de la cérémonie, on racontait que les chats-sorciers agissaient, chantaient et parlaient comme des hommes, tout en célébrant leur maître diabolique. Le malheur attendait les passants imprudents qui auraient été témoins de la scène. Cette tradition était surtout répandue dans le centre et l'ouest de la France [133].
