About UCWeb, Facebook: Twitter: YouTube: For help & feedback, please contact our help center via UC Browser Mini-Menu-Feedback. If you know UC Browser in its version for PC, Android or iPhone, you know that it is a browser that has focused its development efforts to offer faster web browsing and with data consumption more reduced. It is one of the alternatives to Google Chrome and Mozilla Firefox with the highest number of users. Faster, lighter and with less advertising UC Browser Mini is the light version of UC Browser . Smaller and lighter for less powerful devices or for users who want to surf only with the main features. Now, however, it takes advantage of the main features of its big brother like the adblocker to avoid intrusive advertising and pop-ups or its optimization for HD playback of content from video and music portals. Downloads up to 32% faster. This succeeds at the same time in accelerating the browsing speed because to this blocking of online advertising must be added to it the capacity to compress the traffic in the online servers of UCWeb so that the the user only uses the essentials. It is an alternative to other browsers that have also launched lighter versions of its main developments, such as Opera Mini, for example. Main features and functionality As is usual in these reduced versions of browsers and on this UCWeb, we will find an interface with a diaphanous design where the usability has been reinforced to quickly access the most usual options. Small size: around a mega for a better browsing experience . Reduced data consumption which means faster browsing than conventional browsers. Smart Download Manager : capable of managing multiple downloads at once, in the background and with reconnection in case of an error. Video gesture control which allows you to adjust the playback volume. Incognito navigation tab to protect user privacy. Integrated video player. QR code reader . Quick navigation mode. Reduced resource consumption. A lower menu with everything you need The bottom options tab is one of the best features you'll find when installing the UC Mini APK. Especially because it gives access to different options such as video playback, incognito navigation mode or fast mode, among others, options that users frequently seek. New features in the latest version The developer does not specify changes for this version. Conditions and additional information: Minimum operating system required: Android 5.0. 1/6UC Mini-Download Video Status & Movies app is one of the best video browsers from the UC team. It offers a better and safer way to search and browse videos via a search engine. Besides that, you can also gain access to the latest Tv shows, movies, and funny videos. The mobile web browser has all the features you need to enjoy a seamless mobile web browsing experience. The program comes with a sleek and attractive graphic design with a user-friendly interface. If you want to improve your web surfing experience on your Android devices, the UC Mini-Download Video Status Movies app is what you need. If the program does not work well for your Android, you can opt-in for similar programs like Opera Mini.Fast Browsing SpeedUC Mini-Download is a lighter version of the popular UC Browser. This app will occupy less space compared to the parent app. The app offers users a fast searching and browsing experience. Just type and search, and you'll get the results in no time. Additionally, you can use the app to access all sites.All videos in one appWith this excellent UC Web program, you don't need to watch videos from different platforms. The app contains different kinds of videos that you will love to watch. From comedy to TV shows, movies, and more, you'll find them all on this app. It'll save you the stress of looking endlessly for your videos. Not only can you watch videos on this app, but you can also like, comment and download. Boosted video downloaderWith the UC Mini-Download app, you can download multiple videos simultaneously and even at a faster rate. You don't need to keep apps open as they can run in the background. There's no interruption, and you don't need to wait. Face swap video makerThe app comes with some fantastic features, and among them is the ability to change your face. You can snap pictures and swap your faces with your favourite stars. Additionally, you can make videos and share them on WhatsApp.Is UC Mini-Download Video Status & Movie safe?The UC Mini-Download APK software is free and safe to download. It offers a safer and quicker way to surf the internet. Additionally, it has an Incognito Mode feature for private and secure browsing. About UCWeb Facebook: Twitter: YouTube: For help & feedback, please contact our help center via UC Browser Mini-Menu-Feedback. Der UC Browser Turbo ist die schnellste Version der für mobile Betriebssysteme entwickelten UC-Browser-Familie. Er besitzt zahlreiche Funktionen, mit denen die Geschwindigkeit beim Surfen beschleunigt werden soll.Die UC-Browser-Familie wurde 2004 präsentiert und seitdem stetig weiterentwickelt. Die Turbo-Variante bietet zwar nicht alle Funktionen, ist dafür aber deutlich schneller.News-Flow oder Push-Nachrichten werden beispielsweise nicht unterstützt. Das Design ist minimalistisch, wodurch nicht nur die Geschwindigkeit erhöht wird. Die Übersichtlichkeit ist ebenfalls besser. Webinhalte werden intelligent gespeichert. Beim erneuten Aufrufen müssen sie nicht neu geladen werden, sodass insbesondere häufig besuchte Webseiten deutlich schneller geladen werden können.Schneller surfen dank intelligentem DesignDer Entwickler UCWeb Inc hat intelligente Entwicklungen eingefügt. Insbesondere größere Inhalte wie Videos werden über spezielle Server geroutet, wodurch Engpässe reduziert werden sollen. Allerdings müssen mehr Server angesprochen werden, wodurch die Reaktionszeit etwas steigt.Zudem wird die Cloud-Beschleunigung unterstützt. Videos können zentral zwischengespeichert werden, wodurch beim erneuten Ansehen der Website nicht auf das Internet zugegriffen werden muss.Umfangreiche ZusatzfunktionenVideos und andere Dateien können ebenfalls manuell heruntergeladen und mit einem Passwort versehen werden. Ein Inkognito-Modus steht ebenso zur Verfügung wie ein Werbeblocker, womit auf die üblichen Sicherheitseinstellungen nicht verzichtet werden muss. Daneben gibt es einige Zusatzfunktionen. Inhalte können im Hintergrund abgespielt werden. Musik lässt sich beispielsweise bequem bei gesperrtem Bildschirm hören. Da der Browser vor allem in China und Indien beliebt ist, können Cricket-Spiele sogar offline angesehen werden. Wer mehr Funktionen benötigt und auf den Geschwindigkeitsturbo verzichten kann, findet mit dem leistungsstarken UC Browser einen Konkurrenten aus der Familie. Mit minimalistischem Design und schnellem Surfen ist der Opera Mini-Browser ein interessanter Konkurrent.Schnell und leistungsstarker BrowserDer UC Browser Turbo ist vor allem bei Videos und häufig besuchten Webseiten einer der schnellsten mobilen Browser. Große Schwächen gibt es nicht.Schneller SurfenIntegrierter WerbeblockerInhalte im Hintergrund abspielbarZahlreiche Sicherheitsfunktionen Entwicklername : UCWeb Singapore Pte. Ltd. Aktualisierungsdatum : 9. Mai 2020 Offline apk Version : v-12.12.9.1226 Apk Kategorie : Communication "HD video player & fast video downloader. Supportt multiple video formats." Advertisement Bekommen es auf Google Play Jetzt herunterladen (APK) UC Browser Mini ist der beste Videobrowser von UC Team.
