Mass transfer coefficient values obtained by optimization of the concentration of extract data at various times. The research aims to find out the influence of extraction temperature and ratio of kapok leaf with solvent to the concentration, and calculate the mass transfer coefficient (Kc). Metoda yang digunakan adalah kajian kepustakaan dengan pendekatan deskriptif dan eksploratif dari hasil penelitian terdahulu. In the implementation in the field conducted field survey and interview techniques. Nur Apriliani, Aziz Ardiansyah, Siswanti Siswanti, Sri Sudarmi Kapok leaf contain many active compounds include saponins, flavonoids and phenols. Tujuan penulisan ini untuk mengetahui potensi tumbuhan kapok randu yang terkait dengan bahan baku obat herbal atau pengobatan sehingga tumbuhan kapok randu dapat dilestarikan. The amount of kapok plants in Indonesia continues to decline. The extraction process was done using kapok leaf powder extracted with ethanol as a solvent in a three-neck flask with a mixer on the extraction temperature, the ratio of leaf with a solvent, and a particular time. (2) secondary metabolites found in every part of the plant has antibacterial properties kapok, antifungi, bitter taste, and antioxidants, (3) ceiba pentandra as a potencial multifunction medicinal plants that needs to be improved in its use as modern medicine and prevented from extinction. Padahal pohon randu sangat bermanfaat untuk pengobatan. The purpose of this paper is to find out the potential of kapok trees associated with raw materials herbal remedy or treatment so that the kapok plant can remain preserved. Main Navigation Main Content Sidebar Download data is not yet available. The results showed that: (1) a range of secondary metabolite compounds are present in every part of the plant, such as the kapok seeds, leaves, stems, and roots. Abstract: The Cultivation venture kapok (Ceiba pentandra Gaertn.) already done since hundreds of years ago, but has not been well developed. Kapok: Extraction; Mass transfer coefficient There are currently no refbacks. whereas tree is very beneficial to health treatment. pentandra sebagai tanaman obat multifungsi yang potensial sehingga perlu ditingkatkan dalam penggunaannya sebagai obat modern dan dicegah dari kepunahan. From the results of research on the optimum extraction temperature of 70 ° C on the ratio of kapok leaf with solvent of 5 g / 350ml is obtained extract 0,62% of the weight of the leaf and mass transfer coefficient (Kc) 5,74.10<sup>-1</sup> g solvent / min.mm<sup>2</sup>. Metamorfosa: Journal of Biological Sciences Program Magister Ilmu Biologi, Fakultas Matematika dan Ilmu Pengetahuan Alam, Universitas Udayana e-ISSN: 2655-8122, p-ISSN 2302-5697 Website: Key words: ceiba pentandra, potency, secondary metabolites, medicinal plant. The compounds has broad uses, as detergents, forming foam in fire extinguishers and shampoo industries, having hemolysis activity, and as the compounds used to remove kidney stones. To determine the concentration of extract in the solution, the extract was analyzed using a UV- Vis spectrophotometer. Hasil penelitian menunjukkan bahwa: (1) berbagai macam senyawa metabolit sekunder terdapat pada setiap bagian dari tanaman kapok randu, seperti bagian biji, daun, batang, dan akar. More similar stock images Kapok - Kapok - Randu - java cotton - Ceiba pentandra Famous landmark on Curacao: a 800 year old tree : The Cultivation venture kapok (Ceiba pentandra Gaertn.) already done since hundreds of years ago, but has not been well developed. Daftar Isi: Abstrak: Usaha budi daya kapok (Ceiba pentandra Gaertn.) sudah dilakukan sejak ratusan tahun silam, namun belum berkembang dengan baik. Dalam pelaksanaan di lapangan dilakukan teknik wawancara dan survei lapangan. Kata kunci: ceiba pentandra, potensi, metabolit sekunder, tanaman obat. (2) metabolit sekunder yang terdapat pada setiap bagian tanaman kapok randu memiliki sifat antibakteri, antifungi, antiinflamasi, dan antioksidan, (3) ceiba. Jumlah tanaman kapok randu di Indonesia terus menurun. The methods used are library research which descriptive and explorative approaches mainly from previous examination.
