The idea for this plugin comes from seeing many law enforcement officers using their parking lights in the evening while their vehicles are parked. I reached out to Rich to help me with the initial idea, which was to use the vehicle indicators as steady burning lights, but they're hard programmed to flash by the game. There will be one more update to include a few more modern HEVs, like the Toyota Prius, Ford F150 PowerBoost hybrid, and Ford Police Interceptor Utility hybrid.
